

# 20kw inverter corresponding voltage

## Overview

---

Wide range 200-820 volt DC to three phase 208-480 volt AC on grid inverter operates at 50Hz/60Hz low frequency, 20kW rated capacity, transformerless design and high power density, LCD main parameters, with wide MPPT voltage, easy to install, is a perfect solution for grid tied solar power system.

## 20kw inverter corresponding voltage

---

[When choosing an inverter, what voltage ratings should you pay\\_](#)

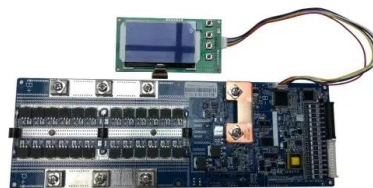

Rated voltage refers to the nominal voltage that the inverter is engineered to work with. For grid-tied systems, this is typically 220V or 230V in most countries.
