

# 2kWh outdoor power supply cost performance

✓ 100KWH/215KWH

✓ LIQUID/AIR COOLING

✓ IP54/IP55

✓ BATTERY 6000 CYCLES

## Overview

---

What are the performance metrics for portable power stations?

Currently, we look at two main performance metrics for portable power stations: charge time and discharge capacity. Every company that sells portable power stations provides the expected number of watt-hours its products are supposed to last. That can vary from as low as 240 watt hours to as many as 2,000 watt hours for a larger power station.

Can a portable power station be used as an uninterruptible power supply?

Yes, a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features, like automatic switchover when power loss is detected.

What is the most expensive portable power station?

The one downside is the price tag, as this unit also comes through as the most expensive portable power station with a list price of \$4,250. Milwaukee M18 Carry-On Power Supply: It isn't a great portable power station. You're probably considering buying it because you're already on the platform. If that's the case, I say go for it.

Why should you buy a portable power station?

Uninterrupted Power Supply: Featuring 20ms seamless switching, this portable power station is built to handle unexpected power disruptions, keeping your power ON during energy outages from grid issues to natural disasters like hurricanes and storms.

What is the best portable power station?

Bluetti AC 200 Max (2,048 Wh) (Update: Out of stock): The AC200 Max once held our title for the best value portable power station, giving you a 2,048 watt-hours of capacity (expandable to 8,192Wh), 2,200-watt output (4,800-watt surge) and 900 watts of solar charging power (1,400-watt solar

plus AC). That's nothing to laugh at in this price range.

How much power does a power station have?

With its 2,042.8Wh capacity (expandable to 5kWh with extra batteries), it can keep essential appliances running during outages or power a weekend camping trip with ease. The balance of capacity, charging speed and portability makes it the most versatile option for people who want one power station to handle multiple scenarios.
