

# **2kw solar power generation system configuration**

## Overview

---

A 2kW solar system typically consists of 8 panels, each made of 250 Watt modules. The modules measure approximately 1.6 meters by 1 meter. So, for a 2-kilowatt rooftop solar system with 8 solar panels, you will need at least 13 square meters of roof space suitable for a photovoltaic installation.

## 2kw solar power generation system configuration
