

# 500v AC inverter to 380v AC

**3354KWH**

**1331.2V 2520AH**

## Overview

---

What is DC to AC 380V 3 phase inverter?

These dc to ac 380v 3 phase inverter are available in distinct voltage capacities such as 230VAC, 220V/230V/240V for converters, and 100V/110V/120V/220V/230V/240V for the inverter product line. These dc to ac 380v 3 phase inverter are also equipped with input reverse polarity protection features too.

What are the characteristics of inverter module?

[High Performance] The inverter module has the characteristics of high energy efficiency, low power consumption, energy conservation and durability. [Multi-function] This inverter board can be used as front-stage boost inverter circuit of pure sine , trimming sine , single-silicon machine and four-silicon machine.

What is a multi-function inverter board?

[Multi-function] This inverter board can be used as front-stage boost inverter circuit of pure sine , trimming sine , single-silicon machine and four-silicon machine. [Suitable for Electronic Enthusiasts DIY Production] This product can be used for electronic enthusiasts DIY production, maintenance replacement.

What is a sine wave boost inverter?

It can be used as the front-stage boost inverter circuit of pure sine wave, modified sine wave, single-silicon machine, and four-silicon machine. For electronic enthusiasts DIY production, maintenance and replacement, manufacturers' control cabinet supporting products, etc.
