

5kW large solar integrated machine

Overview

What is a 5kw Solar System?

Introducing our cutting-edge 5kW solar system with 5kWh lithium-ion battery storage, designed to revolutionize your energy independence.

What is a Growatt 5000-us solar inverter?

Growatt 5000-US multifunctional off-grid solar inverter, integrated with a MPPT solar charge controller, a high-frequency pure sine wave inverter, and a UPS function module all in one machine. Perfect for off-grid backup power and self-consumption applications. This Unit is 240V output only.

Why should you choose a 5kw Solar System & 5kwh lithium-ion battery storage?

Experience the freedom of energy independence with our 5kW solar system and 5kWh lithium-ion battery storage, and take a significant step towards a more sustainable and self-sufficient future.

How does a 5kw solar panel work?

Harnessing the power of the sun, the 5kW solar panels are engineered to capture and convert sunlight into clean, renewable energy. The included 5kWh lithium-ion battery storage system offers reliable and efficient energy storage, allowing you to store excess solar power for use during periods of low sunlight or at night.

What is a 5 kW hybrid solar power generating system (SPGs)?

The 5 kW Hybrid solar power generating system (SPGS) is your ultimate all round power solution. It's a feature-rich, long lasting, and sustainable solar solution that comes with a combination of top quality DCR solar panels, rMPPT solar hybrid inverter, and lithium ion battery with in-built smart BMS.

What appliances can a 5kw Solar System run?

Some of the main appliances that a 5kW system can run have been mentioned earlier, but for reference it best we give greater detail. The most common appliances that can be run on a 5kW solar system include your high definition television, air-conditioning unit, refrigerator and washing machine.

 **Efficient**
Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

 **Intelligent**
Simple O&M

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

 **Flexible**
Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. Current Inverter Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
