

# 72V inverter voltage

## Overview

---

An inverter converts a 72 Volt DC voltage (battery) into an AC voltage (230V-50Hz). The standard output voltage is 230 Volt, 50Hz with a pure sine wave. This means that this inverter supplies the same type of voltage as the wall socket. This allows any electrical device to work on it.

## 72V inverter voltage

---

### [72Vdc to 110/220Vac Series LCD pure sine wave inverter](#)

This inverter power supply adopts SPWM technology controlled by MCU micro-processing, pure sine wave output, and the waveform is indeed pure. The unique dynamic current loop control ...
