

# **ASEAN local energy storage batteries**

## Overview

---

To reveal the enabling policies of battery energy storage (BES) application for higher renewable energy systems in ASEAN, this policy brief identifies the challenges and opportunities in each AMS by reviewing the current development and regulatory framework. What is ASEAN battery technology conference?

About ASEAN Battery Technology Conference ASEAN Battery Technology Conference (ABTC) stands out as the premier battery conference in ASEAN, attracting an audience of over 250 participants. We look forward to engaging with a diverse range of participants, including cell manufacturers, pack integrators, and recycling companies.

Does ASEAN need enabling policies for energy storage?

However, ASEAN has many untapped markets for energy storage applications. Hence, to maximise the market potential and accelerate the low carbon transition in ASEAN, this policy brief recommends several enabling policies for energy storage. [/vc\_column\_text] [vc\_column\_text el\_class="iframe-pub"] [/vc\_column\_text] [/vc\_column] [/vc\_row].

Is ASEAN a good place to invest in energy storage?

ASEAN has adequate policies to positively influence the attractiveness of energy storage through renewable energy investment, both on-grid and off-grid. However, ASEAN has many untapped markets for energy storage applications.

How can ASEAN achieve a renewables-based transformation?

The renewables-based transformation would need a massive investment in electricity infrastructure to maintain the balance of supply and demand. ASEAN has adequate policies to positively influence the attractiveness of energy storage through renewable energy investment, both on-grid and off-grid.

Who makes solid state batteries in Singapore?

This collaboration seeks to play on the strengths and IPs in solid state batteries developed in Singapore. INV is headquartered in Singapore and is the largest battery separator film manufacturer in the world. Its production plants are in Sweden and Malaysia.
