

# **Albania energy storage groundbreaking ceremony for new project**

## Overview

---

Is Vega Solar launching a lithium-ion battery manufacturing facility in Albania?

In the heart of the Balkans, an innovative partnership heralds a new era for Albania's renewable energy sector. Vega Solar, a pioneering Albanian energy firm, has recently unveiled plans for a groundbreaking collaboration with an undisclosed Indian investor, aimed at establishing the nation's inaugural lithium-ion battery manufacturing facility.

What are the opportunities for solar energy deployment in Albania?

Opportunities for the deployment of solar energy are extensive. Albania's solar insolation is very high throughout most of its territory at more than 1 500 kWh/m<sup>2</sup> annually, with peaks of 1 753 kWh/m<sup>2</sup> annually, particularly in the western part of the country.

Why should Albania invest in sustainable infrastructure?

Caption: Sustainable infrastructure offers great potential for Albania to harness clean energy and energy efficiency, create jobs and boost economic growth. The energy and infrastructure sector is often the economic engine driving a country's journey towards sustainable and inclusive development.

Why is Albania launching a lithium-ion battery manufacturing facility?

Notwithstanding these challenges, the establishment of Albania's inaugural lithium-ion battery manufacturing facility is emblematic of visionary foresight. It positions the nation as a prospective frontrunner in the renewable energy sphere within the Balkan region.

Why is planning important in Albania's energy sector?

Planning is thus crucial in avoiding piecemeal development approaches, ad-hoc decision making, and contradictory investments and development support. Albania's energy sector is guided by its National Energy Sector Strategy 2030, along with the National Renewable Energy Action Plan

2018-2020 and the Gas Master Plan.

Why does Tirana need Vega Solar?

Furthermore, the country is exposed to drought and often turns to emergency imports. Tirana-based Vega Solar, which develops, installs and maintains rooftop solar power plants, saw an opportunity to contribute to diversification with battery energy storage systems.
