

# **Albanian energy storage photovoltaic project manufacturer**

## Overview

---

Will Albania have a solar power project?

The Ministry of Infrastructure and Energy of Albania received four applications for solar power projects with a combined capacity of 235 MW. A proposed unit in Fier, the country's photovoltaics hub, would be the second-biggest in the country. Solar power accounts for 6% of electricity production in Albania.

Where is Albania's second largest photovoltaic plant?

The company laid the cornerstone late last year for the 100 MW solar power system in the west of Albania. The site is near the port city of Durrës. One other PV plant is planned for expansion to 100 MW. Now another project of the same size is racing for the position of the country's second-largest photovoltaic facility.

Could a photovoltaic unit be the second-biggest in Albania?

A proposed unit in Fier, the country's photovoltaics hub, would be the second-biggest in the country. Solar power accounts for 6% of electricity production in Albania. More than half of the photovoltaic output is from the Karavasta facility, the biggest of its kind in the Western Balkans. It has 140 MW in peak capacity.

Will a 100 MW solar power plant be built in Albania?

A company called Euron Solar-PV has submitted an application to the Albanian Ministry of Infrastructure and Energy for the construction of a 100 MW Solar power plant in the villages of Fushe and Povelce, near Fier City. The project is currently in its initial stages and the public has two weeks to submit comments and objections.

How much electricity does a solar park generate in Albania?

The solar park just north of the port city of Durrës will generate electricity equivalent to the annual needs of 150,000 inhabitants. The two projects won

15-year contracts for difference (CfDs) at the first successful solar power auctions in Albania. Spitalla, of 100 MW in peak capacity, gets EUR 29.89 per MWh for electricity delivered from 70 MW.

Is Voltalia a regulated company?

The company is listed on the Euronext regulated market in Paris. In the meantime, the Ministry of Infrastructure and Energy of Albania held another auction for photovoltaic projects, in which Voltalia also participated, and one for wind power.
