

# **American lithium battery energy storage company**

## Overview

---

### Who is American Lithium Energy?

American Lithium Energy (ALE) stands as a prominent manufacturer of advanced lithium-ion batteries, dedicated to electrifying Earth through sustainable energy solutions. Founded with a mission to develop high-performance energy storage systems, ALE has established itself as a leading innovator in silicon anode technologies.

### Who invests in lithium ion batteries?

Notable financial support comes from government entities, including the California Energy Commission, though specific private investors remain undisclosed. American Lithium Energy (ALE), based in Carlsbad, CA, leads in silicon-anode lithium-ion batteries, offering high energy density and safety for electric vehicles, defense, aerospace, and more.

### Why should you choose American Lithium Energy?

Our advanced battery cells are designed not only for performance but for planet-friendly impact. Ideal for businesses committed to eco-conscious practices, our technology supports a greener tomorrow. American Lithium Energy (ALE) | 1,404 followers on LinkedIn.

### Who makes a lithium ion battery?

ALE specializes in manufacturing silicon-based lithium-ion batteries that achieve the highest energy density in the industry while maintaining exceptional safety standards.

### Why do you need a lithium ion battery?

ALE's cutting-edge lithium-ion batteries offer superior performance, exceptional energy density, and extended lifespan, making them ideal for efficient energy storage and distribution across various applications. We are dedicated to optimizing energy capture and utilization, enhancing the

efficiency and reliability of renewable power systems.

What is a nano-silicon lithium-ion battery?

ALE's Nano-Silicon lithium-ion batteries offer specific energies of up to and greater than 350 Wh/kg, providing enhanced operational endurance for mission-critical warfighter equipment such as communications gear, wearable technology, and field-deployed electronics.
