

# **Armenia Solar Power Generation for Home Use**

## Overview

---

In 2019, the European Union announced plans to assist Armenia towards developing its solar power capacity. The initiative has supported the construction of a power plant with 4,000 solar panels located in Gladzor.

is widely available in due to its geographical position and is considered a developing industry. In 2022 less than 2% of was generated by .The use of solar.

As of April 2019 ten 1 MW strong solar stations are installed. Solar and wind stations account for less than 1% of total installed electricity generation capacities. In April 2019 it was.

• • • • • .

According to the , Armenia has an average of about 1720 .

In Armenia, , or water-heaters, are produced in standard sizes (1.38-4.12 square meters). Solar water-heaters can be used for space heating, solar.
