

Armenia Solar Power Home Electrical Control

Overview

What is solar energy in Armenia?

Solar energy in Armenia is an important source of renewable energy, and its technologies are broadly characterized as active solar or passive solar, depending on how they capture and distribute solar energy or convert it into solar power.

Which agrivoltaic solar project will be a pilot project in Armenia?

15 kW agrivoltaic solar station will be the first pilot project in Armenia. The project is planned to be implemented in the Jermuk enlarged community of Vayots Dzor region Investment Project of Solar PV Plants construction. On the roof of the museum was installed a 20.71 kW photovoltaic power station.

What is Armenia's largest solar power plant?

The 200-megawatt plant named Ayg-1 will be Armenia's largest solar power plant with a capacity of around half of Armenia's main energy generator, the Metsamor nuclear power plant. The plant is planned to be built in the Aragatsotn province in an area of over 500 hectares located in Talin, Dashtadem, Katnaghbyur and Yeghnik communities.
