

# **Azerbaijan City Battery Swap Cabinet**

## Overview

---

How many battery swap cabinets are there?

With rich industry experience, we have deployed more than 5,000 battery swap cabinets and put into use 65,000+ smart lithium batteries, providing convenient services for drivers in more than 35 countries around the world, helping clients build a profitable and scalable battery swap business.

What is a tycorun battery swap cabinet?

The swap cabinet uses intelligent charging strategies to optimize battery performance, with easy maintenance, real-time fault alarms. TYCORUN batteries are built for business swap applications, using top-tier cells that withstand high-frequency daily cycling, with shock resistance, high safety, and integrated smart 4G GPS.

Why do you need an electric motorcycle battery swap cabinet?

The electric motorcycle battery swap cabinet has been the perfect fit. Its modular design allows us to add more cabinets as our fleet expands, without requiring any major infrastructure changes. This scalability feature has saved us significant costs and allowed us to easily accommodate our growing number of electric motorcycles.

How do I choose a battery swap service package?

Select the service package that best suits your regional conditions and market scale. Ideal for clients who are just starting or operate on a smaller scale. Can begin operating your battery swap business within just one week, reducing software expenses, and supply chain sourcing costs.
