

Base station wind power supply price

51.2V 150AH, 7.68KWH

Overview

While calculating costs, several internal cost factors have to be considered. Note the use of "costs," which is not the actual selling price, since this can be affected by a variety of factors such as subsidies and taxes: • tend to be low for gas and oil ; moderate for onshore wind turbines and solar PV (photovoltaics); higher for coal plants and higher still for , and
