

# **Battery cabinet DC wind power ESS power base station**

## Overview

---

What is a C&I ESS battery system?

The C&I ESS Battery System is a standard solar energy storage system designed by BSLBATT with multiple capacity options of 200kWh / 215kWh / 225kWh / 245kWh to meet energy needs such as peak shifting, energy back-up, demand response, and increased PV ownership.

How many kWh can a bslbatt battery cabinet hold?

This commercial energy storage system comes in multiple capacity options: 200kWh / 215kWh / 225kWh / 241kWh. The BSLBATT 200kWh Battery Cabinet utilizes a design that separates the battery pack from the electrical unit, increasing the safety of the cabinet for energy storage batteries.

How many cabinets can be connected to a power backup system?

A standard 2-hour power backup solution is available for each cabinet, and the independent dual DC port design makes it easy to connect multiple cabinets for a 4-, 6-, or 8-hour expansion solution. The system is fully productized, integrating LFP ESS batteries, PCS, EMS, FSS, TCS, IMS, BMS.

What does ESS do?

ESS provides complete design engineering of DC Telecom Systems and manufactures cabinets, racks, bus bars and other innovative products for Wireless and Wire Line Power Systems. ESS provides traditional DC Power Plant solutions and new innovative products for today's stringent utility requirements as well as future demands.

-----.

Where is ESS located?

Click below to read more. ESS is centrally located in Garland, Tx. Our 149,000 sq. ft. facility houses the latest technology in metal fabrication and finishing equipment. Read what makes ESS stand out from the rest.

## Battery cabinet DC wind power ESS power base station
