

Battery cabinet including site cabinet

Overview

What is a battery cabinet?

Battery cabinets are a convenient storage solution that encourages staff to maintain the correct handling and storage procedures. By charging and storing batteries in the one location, you are reducing the likelihood of batteries being lost, stolen, damaged or left in unsafe conditions (such as outdoors).

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

What is a site support Cabinet?

Site Support Cabinets (CUBE SS Series) are durable pad mount enclosures designed to provide robust protection of power equipment and battery technologies deployed in outdoor environments. One of the biggest challenges wireless service providers face is to provide reliable power in an efficient and environmentally friendly manner.

Are battery cabinets safe?

As lithium-ion batteries have been known to ignite when being recharged, it's important to have a charging station that is free from faults and electrical malfunctions. Battery cabinets are constructed to have intrinsically safe electrical work that reduces the risks associated with recharging.

What are external battery racks & cabinet design encasing solutions?

Our External Battery Racks and Cabinet design encasing solutions are a premium brand that offer industry-standard features in custom design

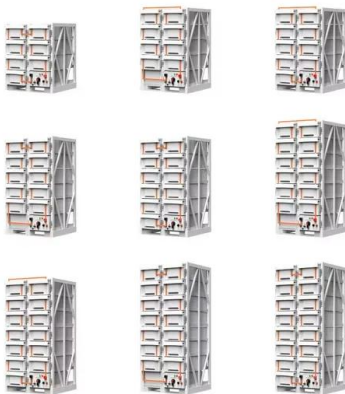

measurements at competitive pricing. They can accommodate various combinations of Batteries, up to maximum number of strings for complete battery ranges.

Can everexceed provide customized battery rack / cabinet system?

We can supply customized lead acid battery rack and cabinet system for solar, UPS, Telecom, Data center etc. EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accomodate any battery cell.
