

# **Benin 8kw single-phase photovoltaic inverter**

## Overview

---

Which inverters work with SolarEdge power optimisers?

Inverters in the Home Wave range are specifically designed to work with SolarEdge Power Optimisers and allow quick and simple commissioning via a smartphone app. The inverter can be easily connected to other system devices – such as the SolarEdge Home Battery – with wireless connectivity.

Which SolarEdge Solar inverter models are available?

The following SolarEdge solar inverter models are available: 4kW\*, 5kW, 6kW, 7kW, 8kW, 9kW, 10kW, 12.5kW, 15kW, 16kW, 17kW, 25kW, 27.6kW, 33.3kW\*  
No results found. Try another keyword, or select the language/document type you are looking for. The SolarEdge DC-AC PV inverter is specifically designed to work with the SolarEdge power optimizers.

How long does a solar inverter last?

Because MPPT and voltage management are handled separately for each module by the power optimizer, the inverter is only responsible for DC to AC inversion. Consequently, it is a less complicated, more cost effective, more reliable solar inverter with a standard 12 year warranty, extendable to 20 or 25 years.

Does the SolarEdge DC-AC PV inverter work with a power optimizer?

The SolarEdge DC-AC PV inverter is specifically designed to work with the SolarEdge power optimizers. Because MPPT and voltage management are handled separately for each module by the power optimizer, the inverter is only responsible for DC to AC inversion.

## Benin 8kw single-phase photovoltaic inverter

---

### [Deye Kit 8kW single-phase hybrid inverter and 12.28kWh battery](#)

The 8kW Deye photovoltaic kit consists of a 8kW hybrid single-phase inverter and 2 Deye RW-M6.1-B batteries with a total capacity of 12.28kWh.
