

Bulgarian PV combiner box manufacturer

Overview

Who is letop – a professional PV combiner box manufacturer?

As a professional PV combiner box manufacturer, LETOP has ten years of expertise in C&I solar sector, providing safe and reliable product solutions for system integrators and engineering companies. As PV generation technology rapidly advances, large-scale ground-mounted plants are evolving towards higher voltage and larger capacity.

What is a 600v DC combiner box?

600V DC combiner box is LETOP's economical solution designed for small PV systems. It offers 1-6 string inputs and 1-2 string outputs. Supports 600V DC system voltage. It also uses high-quality components to ensure overcurrent and overvoltage protection. Suitable for 5kW-10kW small residential rooftop or small commercial PV systems.

What is a 1500V DC combiner box?

Fully meets the requirements of 20kW-50kW large residential rooftop and commercial rooftop PV projects. 1500V DC combiner box is a professional solution tailored for large ground power stations. The combiner box supports a maximum of 24 string configurations, it is suitable for 1500V DC system voltages.

How many string configurations can a combiner box support?

The combiner box supports a maximum of 24 string configurations, it is suitable for 1500V DC system voltages. It features industrial-level protection design, including string monitoring, RS485 bus/standard MODBUS-RTU protocol, arc fault detection, and fast shutdown/fireman switch functions.

Bulgarian PV combiner box manufacturer

DC combiners for solar PV systems , Kaco New Energy

For flexibility in system design and specific safety aspects of C& I PV systems and utility-scale solar power plants, KACO new energy offers combiner boxes as ...
