

Burundi outdoor communication battery cabinet processing

Overview

What makes a good outdoor Telecom cabinet system?

It is required to be easy to transport, fast to install, and easy to maintain. Most of the structural parts of the Outdoor Telecom Cabinet system are thin sheet metal parts and profiles, which are processed by cutting, stamping, bending, welding, riveting, surface treatment and other processes.

How to cool outdoor Telecom cabinet system?

The enclosure protection level of the battery compartment is required to reach IP44. The cooling methods of the Outdoor Telecom Cabinet system include: natural cooling, fan cooling, heat exchanger cooling, and air conditioning cooling.

How to choose the power supply system of outdoor Telecom cabinet?

The power supply system of outdoor telecom cabinet is installed in the field environment, and the installation and maintenance conditions are complex. The feasibility and convenience of installation and maintenance operations, and the personal safety of operators should be considered in the design.
