

Cambodia Telecommunication Energy Storage Battery

Overview

The newly completed 12MWh energy storage project, which was developed in collaboration with SchneiTec, a renewable energy developer, features a 2MWh testbed designed to validate Huawei's Smart String grid-forming energy storage technology.

Cambodia Telecommunication Energy Storage Battery

[Large scale battery storage systems Cambodia](#)

The battery energy storage system supported by the project is capable of storing 16 megawatt-hours of electricity and providing services to help with renewable energy integration, ...
