

Cambodia container power generation brand

Overview

How much money does Cambodia need to build a power plant?

The Cambodian government has stated in its PDP that it will need \$9 billion of investment to develop new power plants and expand the national grid, of which \$2.5 billion has been approved between 2022 and 2025. Opportunities exist for power generation and transmission equipment.

Will Cambodia stop coal power plant investments after 2024?

The government has pledged to cease new coal power plant investments after 2024 and prioritize renewable energy, aligning with its Power Development Master Plan (PDP) 2022-2040. In March 2023, Cambodia launched the Principles for Permitting the Use of Rooftop Solar Power, ensuring transparency and accountability in solar energy adoption. FACT.

Is Electricite du Cambodge a good utility company?

Relatively strong credit quality of the national utility offtaker - Given the traditionally high retail electricity tariffs in Cambodia, the national utility company, Electricite du Cambodge (EDC), is profitable and does not rely on financial support from the government to purchase electricity from private-sector power generators.
