

# **Communication base station EMS in Southern Europe**

## Overview

---

What are emergency communications?

Emergency communications are defined primarily as means of interpersonal communications services between an end-user and the PSAP with the goal to request and receive emergency relief from emergency services.

What is the European emergency number '112'?

Directive (EU) 2019/882 in addition entail the availability of real time text and total conversation for emergency communication by using the European emergency number '112'.

What does EMS stand for?

EUROCONTROL Specification for European Mode S Station (EMS) - Consultation supporting material for edition 4.0 EUROCONTROL Specification for European Mode S Station (EMS) - Edition 4.0 European Mode S station functional specification - Edition 3.11 This document provides specification for a Mode S ground station used for Surveillance functions.

How many emergency calling applications are there in Europe?

There are presently hundreds of emergency calling applications in use across Europe, but their use is constrained to the boundaries of the Public Safety Answering Point (PSAP) with which they are integrated. The resulting TS, updated in March 2020, makes it possible for data to arrive at the most appropriate PSAP, wherever the call is made.
