

Congo Brazzaville outdoor power supply production and processing factory

ESS

Overview

What is Congo Brazzaville?

Congo Brazzaville, also known as the Republic of Congo or the 'Other Congo', is a country located near Kinshasa. It might not be as illustrious as the Democratic Republic of Congo, but it has a lot to offer and makes for a perfect follow-up to our DRC Tour.

How can CEC improve the electricity distribution between Pointe-Noire and Brazzaville?

With the construction of the two new power plants, we are able to make the electricity distribution between the cities of Pointe-Noire and Brazzaville even more efficient and expand public lighting with the installation of new streetlights. CEC provides 70 % of electricity generation in the whole Republic of Congo.

How can we improve the energy access between Pointe-Noire & Brazzaville?

Our integrated model for energy access With the construction of the two new power plants, we are able to make the electricity distribution between the cities of Pointe-Noire and Brazzaville even more efficient and expand public lighting with the installation of new streetlights.
