

Containerized solar inverter cabinet

Overview

Can solar panels be placed on a container roof?

We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount. Check out the Scalable Ground Mount page + manual. How will the container be delivered to my location?

.

What is a 20 & 40 ft shipping container?

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. Fully customizable to your exact needs. The durable container design is completely waterproof, protects you and your equipment from the elements and any potential security threats.

How many watts can a 20 foot container grow?

For example, 20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

Containerized solar inverter cabinet

Hubble Cab Pro

This versatile cabinet houses an inverter, lithium batteries, and SANS Standard Switchgear, ensuring seamless energy management for your home, business, or even small-scale setups ...
