

Cote d Ivoire monocrystalline photovoltaic panels

Overview

How many solar plants will Côte d'Ivoire build?

The Republic of Côte d'Ivoire is planning to build 12 photovoltaic solar plants with a combined capacity of 678 MW in different parts of the country by 2030. Likewise, the government plans to reach 1,686 MW by 2040.

When will a solar power plant open in Côte d'Ivoire?

In the northern region of the Côte d'Ivoire, the first phase of a solar power facility has been officially opened. The Boundiali solar power plant's financing was initially revealed in 2018, and details of its commissioning were made public in December 2022.

What is the goal of the Ivorian energy project?

The goal for the Ivorian State is to achieve a share of so-called clean energies estimated at 45% in the national energy mix by 2030, compared to 30% today. Finally, this project will eventually prevent more than 70,000 tons per year of carbon dioxide emissions, thereby improving the country's carbon footprint.
