

Croatian new energy storage installation company

Overview

In Croatia, several companies are involved in photovoltaic energy storage: IE Energy is developing Eastern Europe's largest energy storage project, with a 50 MW system that could be expanded to 110 MW by 2024, supported by €19.8 million in state aid². Solvis manufactures high-quality photovoltaic modules in Croatia, contributing to the solar energy sector³. ATESS is implementing energy storage systems across various factories in Croatia, addressing energy transition goals⁴. There is a push for increased battery storage capacity, which could reduce electricity prices significantly by 2030⁵. These companies and initiatives highlight Croatia's growing focus on renewable energy and energy storage solutions. Will Croatia build Europe's largest energy storage project?

Croatia is preparing to build Eastern Europe's largest energy storage project. IE Energy has secured €19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW by 2024.

Is Croatia ready for solar energy storage?

"There is immense scope for energy storage in Croatia, predominantly for battery storage." GlobalData says that Croatia is now on target to meet its 36.4% renewable energy target by 2030. However, its recent investment in energy storage has not been accompanied by rapid solar PV development.

How much solar capacity will Croatia have in 2022?

The country might only add 2.5 MW of new solar capacity in 2022, and another 19 MW next year, according to the consulting firm. The International Renewable Energy Agency (IRENA) says that Croatia had 309 MW of installed PV capacity at the end of 2021. GlobalData expects the country to reach 770 MW of cumulative solar capacity by 2030.

Will IE Energy build a 50 MW storage system?

IE Energy has secured €19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW by 2024. IE Energy, a

Croatia -based energy storage operator, is set to build a 50 MW storage project, after securing €19.8 million from the Croatian government via state aid from the European Commission.
