

# **Cuba Communications Green Base Station 6 25MWh**

## Overview

---

Telecommunications in consists mainly of , analog , , , and , and the . Telephone service is provided through (Telecommunications Company of Cuba), mobile telephone service is provided through the Cellular Telephone Company of Cuba (CUBACEL) and, previously, Caribbean Cellular (Celulares del Caribe, C-COM - no longer operating). Cuba's main international teleco.

Are green cellular base stations sustainable?

This study presents an overview of sustainable and green cellular base stations (BSs), which account for most of the energy consumed in cellular networks. We review the architecture of the BS and the power consumption model, and then summarize the trends in green cellular network research over the past decade.

What telecommunications network does Cuba have?

Cuba's main international telecommunications links are through Intersputnik. These links have limited effectiveness due to underdevelopment of undersea telephone cables to the Americas, Spain, and possibly Italy.

Who operates the radio stations in Cuba?

All state-owned and operated by the Cuban Radio and Television Corporation (ICRT), which manages Radio Rebelde, the largest AM network, and the SW service Radio Habana Cuba. Radio broadcast stations: 6 national radio networks, an international station, and many local radio stations.

How many TV stations are there in Cuba?

Television broadcast stations: Four national TV networks and many local TV stations. All state-owned and operated by the Cuban Radio and Television Corporation (ICRT).

Which company previously provided mobile telephone service in Cuba?

Mobile telephone service is provided through the Cellular Telephone Company of Cuba (CUBACEL) and previously, Caribbean Cellular ( Celulares del Caribe, C-

COM - no longer operating).

What mobile telephony standards are used in Cuba?

Telecommunications in Cuba consists mainly of NTSC analog television, analog radio, telephony, AMPS, D-AMPS, and GSM mobile telephony, and the Internet.
