

# **Czech energy storage lithium battery company**

## Overview

---

Where is the largest battery storage facility in the Czech Republic?

Construction of a facility that will include the largest battery storage facility in the Czech Republic and gas combustion turbines began at the end of March near Vraňany in the Mělník region. The investor is the Czech energy group Deccí.

Why is the battery storage industry growing in Czechia?

The Battery Storage industry in Czechia is growing rapidly, driven by the country's commitment to renewable energy and sustainability. Key considerations include the regulatory framework, which supports the integration of battery storage systems into the energy grid.

How will a storage system help the Czech energy sector?

The storage system will support the transformation of the Czech power sector and contribute to the stabilisation of the power grid by providing power balance services. "Europe's energy sector is changing dynamically, but a secure energy supply and network stability remain the cornerstones.
