

DC Battery Cabinet Battery Installation

Overview

Where can a battery cabinet be installed?

Ranging in 300 to 400mm deep they are suitable for installation in walkways, sides of buildings, alongside industrial equipment and areas with limited space. The cabinets come pre-wired with all interconnecting battery cables and a DC busbar for easy indoor or outdoor installation of our batteries.

How do you put batteries in a cabinet?

Using a 2 person lift, insert batteries into cabinet standing them up vertically with battery terminals facing upwards. Securely fasten batteries in places using provided clamp bar and nuts. Connect corresponding Amphenol cables to batteries.

How do I install a UPS battery?

the UPS: Create an installation plan for the battery cabinet (Chapter 3). Prepare your site for the battery cabinet (Chapter 3). Inspect and unpack the battery cabinet (Chapter 3). Unload and install the battery cabinet, and wire the system (Chapter 4). Complete the Installation Checklist (Chapter 4). Have authority.

How is a battery system installed?

installed on a level floor suitable for computer or electronic equipment. Each cabinet in the battery system is placed in its correct location. A cabinet ground ground/mounting kit is installed between any cabinets that are bolted together. A ground wire is installed between all cabinets. All conduits and cables are properly routed to the battery.

How do I install a battery in a PEW enclosure?

Ensure all filings from forming holes are removed from cabinet. Connect main DC cable from main System (PCE) DC isolator to the PEW enclosure DC busbar with M8 nut, washer and locking washer and tighten. Using a 2 person lift, insert batteries into cabinet standing them up vertically with battery terminals

facing upwards.

What is a battery cabinet?

y current. The battery cabinet is installed in a standalone configuration. The term standalone refers to battery cabinets that may be installed adjacent to the UPS or in a separate location, are wired with external customer-supplied conduit and wiring, and may use the battery cabinet breaker as the battery isolation device or a sin
