

Danish energy storage battery construction

Overview

Does European energy have a battery storage project in Denmark?

European Energy breaks ground on battery storage in Denmark together with Kragerup Estate. Project to provide operational experience for European Energy in integration of battery solutions. Copenhagen, Denmark, 20th of January 2025 – European Energy has started on its first large-scale battery storage project.

What is European energy's new battery storage project?

This is done in collaboration with Kragerup Estate. This is the first battery storage project that European Energy has undertaken in Denmark, and it will provide valuable operational experience in integrating battery solutions with the grid for the company.

Will Eurowind energy develop a battery energy storage system?

Together with BOS Power Eurowind Energy will develop and install one of Denmark's largest battery energy storage systems (BESS) as part of an advanced hybrid power plant.
