

This exploded view diagram illustrates the assembly of a portable power supply unit. The components are arranged in a hierarchical manner, showing the relationship between the main housing and its internal parts. At the base is a black, rectangular metal case with a latch and two locking bolts. Above the case, various internal components are shown, including a yellow and blue heat sink, a black metal frame, a green printed circuit board (PCB) with electronic components, and a black metal plate. The topmost component is a black metal lid. The diagram uses a clean, white background to highlight the individual parts and their assembly sequence.
