

# **Dutch container power generation brand**

## Overview

---

Can a container power plant be a power plant solution?

Everywhere In 2018, Geppert set a visionary, ecological milestone in the field of small-scale hydropower: the introduction of a container power plant as a power plant solution. Simple, stand-alone and cost-effective, the Hydropower Cube can supply up to 1 megawatt of green energy.

Which genset containers are available?

All genset containers are also available with an option for  $-40^{\circ}\text{C}$  and most variants can be upgraded for  $+45^{\circ}\text{C}$ . A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

What types of containers are available?

Type 6 containers are available with a similarly broad range of options that we offer for the Type 2 / 3 / 4 containers. These include several heat recovery configurations, exhaust after treatment systems, compliance with country-specific regulations, earthquake safety requirements and various ambient conditions.

What is the standard ventilation for genset containers?

The standard ventilation is designed for ambient temperatures from  $-25^{\circ}\text{C}$  to  $+40^{\circ}\text{C}$ . The genset containers can be equipped with several additional features to enable operation at lower temperatures on request. Type 6 containers are available with a similarly broad range of options that we offer for the Type 2 / 3 / 4 containers.

What are the sound pressure levels available for genset containers?

Lower sound pressure levels are available on request. The standard ventilation is designed for ambient temperatures from  $-25^{\circ}\text{C}$  to  $+34^{\circ}\text{C}$ . All genset

containers are also available with an option for  $-40^{\circ}\text{C}$  and most variants can be upgraded for  $+45^{\circ}\text{C}$ .
