

Dutch energy storage equipment companies

Overview

Detailed info and reviews on 10 top Energy Storage companies and startups in Netherlands in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more. Are all energy storage facilities in the Netherlands electro-chemical?

All energy storage facilities in the Netherlands are electro-chemical, with the exception of the contracted 1 MW Hydrostar underwater compressed air energy storage project in Aruba (Caribbean). Hydrostar is a Canadian company specializing in underwater compressed air energy storage technologies.

Where can I find a full list of Dutch energy providers?

You can find a full list of Dutch electricity providers, including green energy providers, on the consuWijzer website. This site is run by the Netherlands Authority for Consumers and Markets; the Dutch regulatory authority for energy providers. Below are some of the main energy providers in the Netherlands:.

How much energy storage does the Netherlands need?

To achieve its renewable energy targets, reports in 2021 indicate that the Netherlands will need to install between 29 and 54 gigawatts (GW) of energy storage capacity by 2050. Storage with efficient management systems and digital controls is a crucial element of a reliable, flexible and affordable energy system.
