

El Salvador Solar Photovoltaic Panel Project

Overview

What is El Salvador's first state-owned solar power project?

Salvadorean state-owned hydro power producer Comision Ejecutiva Hidroelectrica del Rio Lempa (CEL) this week launched construction of a 17-MWp solar PV farm in the south-west part of El Salvador. The project has the distinction of being El Salvador's first state-owned solar power initiative -- from the design and planning to execution, CEL said.

Where is El Salvador building its first solar energy plant?

Photo: CEL. San Salvador — The state-owned and autonomous Comisión Ejecutiva Hidroeléctrica del Río Lempa (CEL) of El Salvador will build its first solar energy plant in the country, in the municipality of Talnique, in La Libertad department in the country's southwest, around 30km (18.5 miles) west of the Salvadoran capital.

How much solar power does El Salvador have?

From pv magazine LatAm El Salvador's energy regular, SIGET, said this week that the country's total installed PV capacity reached 633 MW by the end of 2023. The nation's total installed power generation capacity now stands at 2.99 GW, with 638 MW from hydropower. Solar accounts for about 21.1% of the nation's electricity mix.
