

# Energy Storage Battery Villa

## Overview

---

How does a villagrid battery storage system work?

Your system connects to a Inverter which converts the DC energy stored in your VillaGrid battery storage system and converts it to usable AC energy that your home appliances can use. The VillaGrid allows you to avoid peak hour charges, reduces your dependence on the energy grid and keeps you running in the event of an outage.

Could a battery energy storage system power thousands of homes?

Residents are being invited to have their say on plans for an energy storage facility that could store enough electricity to power thousands of homes in an emergency. The proposal is for a site next to the National Grid's Staythorpe substation to house a battery energy storage system (BESS) capable of storing at least 400 MWh of energy.

Why should you choose a villagrid battery?

Lower your energy costs and reduce your dependence on the power grid with the award-winning energy storage system that provides more power, more safety, and the industry's longest warranty. VillaGrid is the longest lasting home battery with the highest power while also being the safest and most efficient battery on the market.

What is villgrid energy storage?

Take a quick tour of the Villgrid energy storage system. Understand the features and benefits it can have onto your monthly electric bill. 10 kilowatts continuous power. Double the power of legacy lithium ion batteries. Lithium Titanate is the safest battery chemistry on the market, with the industry's first non-flammable, carbon-free anode.

Are lithium titanate batteries good for home energy storage?

Proven for years by NASA and the military, Lithium Titanate batteries are now

available for home energy storage! Lower your energy costs and reduce your dependence on the power grid with the award-winning energy storage system that provides more power, more safety, and the industry's longest warranty.

Is the villagrid battery a reassurance?

The VillaGrid is battery is ready to be a reassurance for homeowners who are impacted by evolving climate. Working hard to provide our customers with reassurance about the comfort of their home. Decide how and when to use the energy they have stored, such as during power outages, or to save money during peak rate hours.
