

Energy storage power stations under construction in Australia

Overview

Business intelligence company Rystad Energy has said that almost 4 GW of utility-scale battery energy storage systems (BESS) entered construction in the first nine months of 2024. That equals the full-year figure for 2023.

Energy storage power stations under construction in Australia

[Australia added 5 GWh of big batteries in Q1](#)

As at the end of 2024, there was over 8.7 GW/23.3 GWh of large-scale battery capacity under construction in Australia, equivalent to more than a third of energy generated ...
