

# **European Medical Supplies Lithium Battery Pack**

## Overview

---

What is a battery pack in medical devices?

The Battery Pack is a replaceable primary power source for the Compression Module in medical devices. It is suitable for devices like the DRAEGER ETHYLOMETRE 7410+ and uSmart® 3200T NexGen.

Why are lithium-ion batteries used in medical devices?

Lithium-ion batteries are commonly used in a variety of medical devices because of their high energy density and durability. In addition our high quality lithium-ion batteries have a low self-discharge rate. Our lithium-ion backup battery will retain its charge for a longer period of time when not in use.

Are lithium-polymer batteries a good choice for medical devices?

Lithium-polymer batteries are a popular choice for use in medical devices due to their lightweight design and high-capacity. Our lithium-polymer backup batteries are often used in portable medical equipment, such as relaxing chairs and shower chairs, where a compact and lightweight power source is essential.

What is a lithium-polymer backup battery used for?

Our lithium-polymer backup batteries are often used in portable medical equipment, such as relaxing chairs and shower chairs, where a compact and lightweight power source is essential. Lithium-ion batteries are commonly used in a variety of medical devices because of their high energy density and durability.

What types of backup batteries can be used in medical devices?

We have a big collection of different types of high quality backup batteries that can safely be used in medical devices. We have SLA/VRLA, NiMH, Lithium-Polymer and Lithium-Ion batteries. One of the key applications of SLA/VRLA

batteries is in the medical industry.

What is a custom battery pack?

Custom battery packs validated by ISO13485 processes and developed for medical devices, instruments and equipment which are battery-powered. From telecoms to GPS and tracking hardware, made-to-specification battery packs for navigation devices, private mobile radio (PMR), asset tracking and monitoring.
