

# **High-power emergency communication command base station**

CE UN38.3 MSDS

## Overview

---

The USAF High Frequency Global Communications System is a worldwide network of 15 high-power HF stations providing command and control communications between ground agencies and US military aircraft and ships.

SCOPE (System Capable Of Planned Expansion) Command replaces older high power Global HF (GHFS) equipment. SCOPE Command incorporates.

Aircrews use a preliminary call as outlined in ACP-121 US Supp 2 using the collective callsign "MAINSAIL" or the HFGCS station call sign (example:.

(a) Phone Patch Service. Phone patching allows direct voice communications between ground agencies and aircraft by electronically connecting telephone.

The 2015 Digital Digest has information on the US Air Force Global HF ALE Network - see the HF Appendix for the link to this document, which is very inexpensive.
