

# **How to build a battery cabinet base station**

## Overview

---

How do I mount the battery to the wall?

Now the unit is ready to be mounted to the wall via four screws. Since the back plate has the keyhole mounting slots it's as easy as dropping the unit down on the screws on the wall and it is secure. Just plug the unit in with a PC power cord and you are ready to take charge of your battery situation for your home or shop.

How do you mount a custom drill storage station?

Sand the custom drill storage station smooth. Stain the wood as desired. Then when the stain dries add a top coat as desired. To mount the custom drill storage and charging station to the wall, drill holes through the back piece into studs in the wall. If studs are not available, you can use heavy duty drywall anchors.

How do you mount a charging station to a wall?

There are multiple ways you can mount the charging station to the wall: Use a screw through the back into a stud. Using a French cleat. I decided to use a French cleat because I didn't have two studs accessible in the space where I needed to add the cabinet.

What makes a good charging station?

The top part of the charging station is like a cabinet with heavy-duty hinges and a magnetic latch. The inside of the charging cabinet is open on the top and bottom, allowing air to flow. A good-quality heavy-duty power strip with enough plugs and USB points to accommodate all the chargers. \*\*\*This post contains referral or affiliate links.

How to choose a portable power station?

It does not require any fuel or oil to operate and does not produce any harmful emissions. This makes it an ideal choice for outdoor activities like camping

and hiking where you want quiet, clean power . The most important decision when choosing a portable power station is how much power (wattage) is available.

What is a cordless tool battery charger station?

This station is perfect for holding all of your cordless tool battery chargers. What sets it apart from a simple shelf is the concealed chase for routing and hiding the power cords for a nice clean look. This is a very simple project made from just a quarter sheet of plywood and a few screws.
