

How to connect the power connector of a mobile base station

Overview

How do I connect a base station?

Base Station Connection and Routing — Fully insert the Power Cable and Interface (I/F) Cable connectors into their respective ports in the underside of the Base Station. Then connect to an AC Adapter, and plug the AC power cord into the (wall) outlet. Figure 5. Connecting the Base Station.

How to connect a base station to a fixed line phone?

Place the base station at a minimum distance of 15 cm from the fixed line phone. Remove the cover. Connect the connector of the power supply unit to the DC IN socket (marked yellow). Connect the power supply unit to a wall socket. DW BS, DW BS ML: The Link LED lights up red. Either the PC LED or the Phone LED lights up white.

How do I attach a DC power cord to a base station?

The DC power cord for the adapter can be secured to the bottom of the base in order to maximize the mechanical retention of the cable itself. The routing of the power cord can be changed to accommodate base station positioning: horizontal, stand or wall mount.

How do you connect an external antenna to a radio?

To connect an external antenna to the Powerwerx MBLCOVR Mobile Radio Base Station, screw in the antenna connector from your external antenna to the back of the radio. Then, connect the power supplies DC power connector to the radio's "T" connector. Plug in the power supply and turn it on. Next, turn on the radio's main power switch and you are on the air!.

What size radios are compatible with the base station enclosure?

The Powerwerx MBLCOVR Mobile Radio Base Station Enclosure can accept radios that are smaller than 5.5 inches wide and 2.125 inches tall. It is compatible with most radios having 5.5 inch (140mm) mount spacing.

How do I set up a CB radio?

The simplest set-up (besides using a handheld CB with the supplied antenna — which limits your range to a couple blocks in the city, or around 0.5 to 1 mile in a flat rural area) is a mobile set-up in your vehicle. For a very easy mobile set-up you will simply power the CB radio via your cars cigarette lighter electrical outlet.
