

How to make a base station with a battery cabinet

Overview

What battery does my DIY power station use?

My DIY power station has 1,464 watt hours of energy using a 122 amp hour flooded lead-acid battery from Wal-Mart. This battery is no longer available, however you will find alternative 100 amp hour AGM and LiFePO4 batteries linked below.

How to choose a portable power station?

It does not require any fuel or oil to operate and does not produce any harmful emissions. This makes it an ideal choice for outdoor activities like camping and hiking where you want quiet, clean power . The most important decision when choosing a portable power station is how much power (wattage) is available.

What should I consider when building a DIY solar power station?

One important factor to consider when building this DIY solar power station: Since I've gone with a flooded lead-acid battery, it is extremely important to not drain the capacity past 50%. This is due to something called depth of discharge (D.O.D).

What makes a good charging station?

The top part of the charging station is like a cabinet with heavy-duty hinges and a magnetic latch. The inside of the charging cabinet is open on the top and bottom, allowing air to flow. A good-quality heavy-duty power strip with enough plugs and USB points to accommodate all the chargers. ***This post contains referral or affiliate links.

What is a portable power station?

It is essentially a battery pack that can be charged using solar panels, wall outlets, or car chargers, and then used to power electronic devices like smartphones, laptops, cameras, and even small appliances like mini-fridges or

electric grills. The main advantage of a portable power station over traditional generators is its fuel source.

How do you mount a charging station to a wall?

There are multiple ways you can mount the charging station to the wall: Use a screw through the back into a stud. Using a French cleat. I decided to use a French cleat because I didn't have two studs accessible in the space where I needed to add the cabinet.
