

How to use the smart battery replacement cabinet

Overview

How do I replace the AA battery in my smart handle?

3. Slide the black plastic cover off the Smart Handle. 4. Replace the AA battery. Ensure the battery is oriented properly following the diagram in the battery compartment. 5. Replace the black plastic cover and lock the end of the Smart Handle back in place. 6. If required, tighten the hex screw in the Smart Handle by turning clockwise.

How do I change the battery on my smart lock?

To change the battery on your smart lock, you'll need to follow specific steps provided by the lock's manufacturer. Typically, this involves accessing the battery compartment, removing the old batteries, and inserting new ones according to the correct polarity.

How do I find the battery compartment on my smart lock?

Find the battery compartment on your smart lock. Depending on the lock model, the battery compartment could be at the front or back of the lock. Use the smart lock manual to help locate the compartment if needed. Carefully remove the old batteries from the compartment. Make sure to dispose of them properly according to your local regulations.

How do I install new batteries?

Take the new batteries and insert them into the battery compartment according to the polarity indicators. Ensure that you align the + and - signs correctly. Once inserted, close the battery compartment securely. After inserting the new batteries, test the smart lock to ensure it functions correctly.

How do I extend the battery life of my smart lock?

To extend the battery life of your smart lock, consider the following maintenance tips: Clean the battery terminals regularly to prevent poor

connections. Keep spare batteries on hand for quick replacements. Check the battery status on the smart lock app periodically.

How long does a smart lock battery last?

On average, a set of batteries can last anywhere from 6 months to a year, depending on how frequently you use the lock. When the battery level drops, your smart lock will usually emit a beeping sound to alert you. This indicator serves as a prompt for you to replace the batteries promptly.

How to use the smart battery replacement cabinet

Smart Cabinet Lock FAQ

Open the battery compartment door and remove the existing battery and then replace with a new battery. Once the new battery is installed, close the battery compartment door and re-mount.
