

# **Inverter 12V low voltage protection**

## Overview

---

The low voltage relay will automatically disconnect the DC power between the batteries and inverter, and/or other DC devices like lights or water heating elements. When the relay disconnects, the inverter will shut down and prevent further draw on the battery or batteries.

## Inverter 12V low voltage protection

---

### [Inverter Low Voltage Cutoff--Why SO low?](#)

I'm planning to buy two 12V inverters: a small one (about 500W) and a bigger one (about 2000 watts). I want to protect my 2 x 105AH FLA batteries, but have been surprised to ...
