

# **Ireland Freight Photovoltaic Solar Onsite Energy**

## Overview

---

Why is Ireland deploying more solar panels?

The deployment of solar capacity in recently years is driven not only by Ireland's Climate Action Plan target of 8 GW of capacity by 2030, but also a result of the significant and sustained reduction in the cost of solar panels and the benefits to customer of onsite generation.

Is solar energy a good investment for Ireland?

Solar energy can make a vital contribution to Ireland's economic performance over the coming years arising from direct and indirect benefits. The industry has a strong pipeline of development projects in planning, granted planning, and commencing construction as of mid-2024.

Is solar the fastest growing renewable power source in Ireland?

Solar's recent growth in Ireland has been revolutionary. ESB (Electricity Supply Board) Networks recently stated that solar is 'the fastest growing renewable power source in Ireland.' From 0% last year, Sustainable Energy Authority of Ireland statistics showed a day in May when solar provided 10% of the country's electricity.

What jobs are supported by Ireland's solar energy industry?

Ireland's solar energy industry supports a wide variety of jobs, both directly and indirectly, through its capital activities. The types of local employment supported includes project management, construction, and a range of infrastructure delivery roles.

What is solar PV & the energy retrofit?

Solar PV and the energy retrofit hie d Electronic Equipment4150Introduction5The sun delivers more energy to the Earth in an hour than is used worldwide in a year. Solar photovoltaic (PV) technology generates renewable electricity f om sunlight – a free and natural resource.

Businesses can harness this clean energy by using solar.

How important is solar in Ireland's decarbonisation strategy?

With over 680MW (megawatts) of installed capacity, solar has demonstrated its importance in Ireland's decarbonisation strategy. Persistent barriers to the deployment of solar must be lifted to guarantee a bright future for Ireland. Solar's recent growth in Ireland has been revolutionary.
