

Is there a 5G base station in the Democratic Republic of Congo

Overview

Is Vodacom conducting 5G tests in DRC?

(Ecofin Agency) - Khalil Al Americani, CEO of Vodacom DRC, announced the company is currently conducting 5G tests in the country. In a recent interview with ITWeb Africa, the manager said the trial is being carried out under the supervision of the DRC telecom regulatory authority, ARPTC.

What is mobile internet penetration in the DRC?

Mobile Internet penetration in the DRC is at 32.3% and Orange and Vodacom's announcement to construct new base stations in the country aligns with the country's new vision for the digital economy as included in the National Digital Plan Horizon 2025 adopted in 2019.

Why should you choose Vodacom Congo?

Thanks to its policy of corporate social responsibility, Vodacom Congo gives its subscribers access to solutions that contribute to the social and financial inclusion of the Congolese people. For more than 21 years, Vodacom Congo has been a privileged and constant partner in the economic and social development of the DRC.

How can the DRC bridge the digital divide?

Deploying and operating networks, particularly in deep rural areas, continues to be a significant challenge in the DRC. To bridge the digital divide and expand network coverage in underserved communities, the companies have pledged to jointly construct up to 2,000 new solar-powered base stations over six years, using 2G and 4G technologies.
