

Japanese Liquid Cooling Energy Storage Service Company

Overview

Does JinkoSolar have a liquid cooling energy storage system for C&I application?

Following the successful launch of SunTank residential ESS in Japan last year, today JinkoSolar brings its new liquid cooling energy storage system for C&I application and showcases it in this year's PV Japan 2023.

What is liquid air energy storage?

Liquid air energy storage technology utilizes readily available air, cooling it into a liquid form for storage and later converting it back to a pressurized gas to drive turbines and generate electricity. We at Sumitomo SHI FW provide Liquid Air Energy Storage (LAES) solutions utilizing a technology license from Highview Power.

Does Sumitomo SHI FW offer liquid air energy storage?

To drive the transition to 100% renewable energy, we offer Liquid Air Energy Storage (LAES) technology, developed with our partner Highview Power. Sumitomo SHI FW is at the forefront of cutting-edge energy storage technology by actively participating in The Long Duration Energy Storage Council.
