

# **Kenya Site Energy Battery Cabinet Policy**

## Overview

---

Does Kenya need battery energy storage?

A battery energy storage. The question of power storage has become critical as Kenya embraces e-mobility which requires reliable power supplies. The Energy and Petroleum ministry targets to mainstream power storage in its electricity master plan as the country's renewable energy generation expands.

Does Kenya have a geothermal policy?

The Policy also positions Kenya as a leader in geothermal development, capitalizing on its geographical advantage and renewable potential to enhance energy security, spur green industrialization and contribute to global climate goals. Energy efficiency is a key focus of the policy, with an aim to double improvements by 2030.

What is Kenya's Energy Policy 2025–2034?

As Kenya progresses towards achieving sustainable and inclusive development, energy remains a key driver for economic growth. The National Energy Policy 2025–2034 is therefore a tool in spearheading our country's vision of equitable energy transition, focusing on innovation, resilience, and sustainability to meet the needs of all Kenyans.

What is the goal of Kenya's Energy Policy?

Policy Goal/Objective: Promote renewable energy resource development and utilization. Statement 1: To promote and streamline adoption of energy transition technologies in Kenya. Develop a regulatory framework for the adoption of clean energy technologies. Regulatory framework governing adoption of clean energy technologies adoption.

Who oversees energy policy enforcement in Kenya?

Key institutions like the Energy and Petroleum Regulatory Authority (EPRA)

and Kenya Electricity Transmission Company (KETRACO) will oversee policy enforcement, and the government will work closely with stakeholders to track progress and adjust strategies as needed to meet the policy's objectives.

What is Kenya's electrification strategy?

Statement 1: To ensure all Kenyans have access to reliable, quality and sustainable electricity. Develop and implement the Least Cost Electrification Strategy for universal access to electricity. National Electrification Strategy. Number of connections made every year. ii.
