

Kenyan manufacturer of safe iron flow batteries

Overview

Who is Africa's leading battery manufacturing company?

Africa's leading battery manufacturing company. ABM (Associated Battery Manufacturers) is the leading battery manufacturing company in Central and Eastern Africa, and the only battery manufacturer in Kenya.

What is an iron flow battery?

An iron flow battery uses electrolytes made up of iron salts in an ionized form. These batteries are environmentally friendly, safe, and one of the most reliable electrochemical energy storage devices due to their earth-abundant and non-toxic materials.

Where is Iron-Flow batteries based?

Developed using an advanced metal complex and membrane, Iron-Flow Batteries is based at the Paris Flow Tech platform – a premier hub for innovation in continuous flow chemistry. This state-of-the-art facility fosters the development of breakthrough technologies like ours through cutting-edge research and collaborative expertise.

Are iron flow batteries better than Li-ion batteries?

Iron flow batteries have a longer asset life than Li-ion batteries. Battery manufacturers are collaborating with utility companies to implement iron flow battery projects, aiming to replace diesel-fueled power generation with the more environmentally friendly flow battery system.

What makes iron flow batteries environmentally friendly?

As iron flow batteries consist of earth-abundant and non-toxic materials, they are environmentally friendly, safe, and one of the most reliable electrochemical energy storage devices. On the other hand, an iron flow battery uses electrolytes made up of iron salts in an ionized form.

What are flow batteries used for?

Flow batteries help create a more stable grid and reduce grid congestion and fill renewable energy production shortfalls for asset owners. Global R&D is fueling the development of flow battery chemistry by significantly enabling higher energy density electrodes and also extending flow battery applications.

Kenyan manufacturer of safe iron flow batteries

Our Business

Specialising in the production of solar batteries and automotive batteries, we uphold stringent standards to ensure product quality and reliability. Our offerings include vented and ...
