

Kosovo-specific solar photovoltaic panels

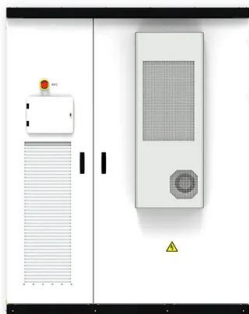

Overview

Kosovo is transitioning to solar energy with key projects such as the 'Kosovo's 100 MW Solar Auction' in Kramovik, alongside incentives for small-scale photovoltaic (PV) installations up to 7 kW. These efforts aim to amplify solar energy capacity to 100 MW by 2031.

Kosovo-specific solar photovoltaic panels

Solar panel selection Kosovo

The pace of development for solar projects in Kosovo is increasing. There is growing interest from investors to engage in developing new solar capacities across the country. Currently there are ...
