

Macedonia complete solar power supply system

Overview

Who built the largest solar power plant in North Macedonia?

Slovenia's energy group GEN-I completed the construction of the largest solar power plant in North Macedonia and connected it to the grid in September, four months ahead of the government's deadline.

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

Why is Gen-I launching a solar power plant in North Macedonia?

The start of operation represents an important milestone for the expansion of GEN-I in the implementation of large solar power plant projects and the production of carbon-free electricity as well as a key contribution to the so-called Green Scenario of North Macedonia under the Strategy for Energy Development.

How big is the new solar power plant?

"The new largest solar power plant to date, 17 MW, started its operation," said Prime Minister Dimitar Kovačevski. "With this investment, we are moving towards energy independence, strengthening the green economy and improving the standard of living.
